SCORING & PITS: In the pits, each team to rotate or provide a person for pit duty. On the line each team to rotate or provide a person for scoring.

For those of you not familiar with the Palma, this is team event fired at three long ranges. Each man has a coach who helps the shooter, someone in the pits who pulls targets and discs/scores each shot, and someone to write the scores on the line. The team rotates all its members at each range so each member shoots and the team can work out among its members who will score in the pit, who will coach, and who will write the scores on the line. After all teams fire we will all move to the next farther distance, etc. until the match is completed. Each team selects a Captain who is responsible for the action of the team.

If your team members do not have zeros, don't worry too much about it. We'll give you time to get on paper and then your first shot on paper will be your first sighter. And you can always shoot at something in the backstop to get pretty close before you go to record. And your coach will be spotting and calling the wind for you.

To enter your team call Steve or Bonnie Fentress at 209-478-4439, or e-mail us at s-bfen@sbcglobal.net. If you are a 'spare' shooter and don't have a team, call us. We'll make a pick up team for this match.

We are a mellow bunch and we do this to have fun and enjoy our fellow shooters, so come out and enjoy the day.
